

SmartStock[®] Mini Cutlery Dispensers

Order online at: www.gppro.com/OrderSmartStock

30% shorter & 30% less counter space needed**

You just can't make a better choice than SmartStock[®] cutlery dispensers

Nobody wants to use cutlery that other people have touched. We get that. That's why all of our utensils are kept nice and clean inside an enclosed dispenser. Guests press a lever and each utensil is distributed one at a time, which isn't just good for hygiene, it helps reduce consumption and waste too. Not to mention, each dispenser holds at least 80 utensils, so there's less time and effort spent on re-stocking.

Hygienic Solution

Enclosed dispensers to help keep germs and debris out. No more reaching into nasty cutlery bins.

Reduced Consumption

One-at-a-time dispensing reduces cutlery usage on average by 29% and up to 49% vs. open bins*. When guests take only what they need, you get lower costs and less waste.

Operational Efficiency

Spend less time re-stocking. Pre-counted, preassembled refills make it easy.

Enhanced Image

Keep utensils neat and organized. Reduce counter top clutter.

choose ...

SmartStock® Medium-Weight Polystyrene Cutlery

An ideal combination of value and versatility. Standard-length cutlery that works great with a variety of meals to fit any menu.

SmartStock[®] Medium-Weight Polypropylene Cutlery

An economical solution that minimizes cost while delivering good overall performance. Flexible utensils resist breaking, which helps improve safety.

A creative spin on saving space and adding convenience

It can be a quandary: What to do when you need more counter space than your counter is willing to give particularly in high-traffic areas? Fortunately, you don't have to search for a solution. Turn the job over to the SmartStock[®] dispenser carousel.

All together now

Three dispensers are circled together on a rotating base. A quick twirl and your customers can get the cutlery they need (one at a time, of course).

Take it anywhere

The optional floor stand that supports the carousel is of big value when things are really tight. It is designed to stand alone anywhere you have the room and where customers have easy access next to the counter, by the condiments, in the dining room.
